

## Forecast for the 14th World Congress of Biological Psychiatry 2 – 6 June 2019 | Vancouver, Canada 2019

Prof. Dr. Peter Falkai

Clinic for Psychiatry und Psychotherapy, University Hospital in Munich, Germany

WFSBP Vice-President (2017 - 2021)

The 14th World Congress of Biological Psychiatry held in Vancouver, Canada from 2 to 6 June 2019 will intensify its emphasis on bridging basic science and clinical applicability. All relevant areas of biologically based research will be covered and we will show that there could be no better setting to bring together relevant basic research including all mental disorders in order to discuss the progress in diagnosis and treatment.
