

## **Professor Ricardo F. Allegri, MD, PhD, FAAN**

Ricardo Allegri trained in neurology and psychiatry, obtained his PhD. in sciences from the University of Buenos Aires. He undertook a post-doctoral fellowship in cognitive neurology at Hospital Bellevue in France and a research stage in behavioral neurology at UCLA in USA.

He began his career as a scientist of the CONICET (National Committee of Scientifically and Technological Research) in 1995 and chaired the Buenos Aires Health Research Council from 2008 to 2014 and again from 2020 to 2024.

He is Head of the Department of Cognitive Neurology, Neuropsychiatry and Neuropsychology, as well as Director of the Memory and Ageing Centre at the Fleni Neurological Research Institute in Buenos Aires. He is professor of neurology in the School of Medicine at the University of Buenos Aires, professor of neurosciences at Maimonides University in Buenos Aires, and the chair of the advisory board at the Association against Alzheimer's disease and related disorders in Argentina (ALMA). He is also a member of the medical advisory board at Alzheimer Disease International.

He has published extensively on cognitive neurology and dementia in peer review journals and books and has co-edited nine books. He has received over 52 awards in the field of cognitive neurology and neuropsychiatry, including the National Academy of Medicine Award and the Research Recognition Award by the School of Medicine, the University of Buenos Aires. Professor Allegri was a corresponding fellow of the American Academy of Neurology, as well as an Active Member and Trustee of the World Dementia Council.
